

DIPSTICK
Level sensor

PD940

P-NET

**Level sensor with conductivity
and temperature sensor -
all in a single unit!**

Features

- **Advanced level measurement principle suppresses influence from foam**
- **Compact sanitary design made of AISI 316**
- **Continuous level measurement**
- **Flexible configurations to suit your specific application**
- **Level, conductivity and temperature sensor in a single unit**
- **Designed for top mounting in metal tanks and vessels**
- **Level readout in mm or by adding a customized conversion table**
- **Temperature sensor with process temperature range 0 °C to +100 °C**
